

**MIDNIGHT MAKER  
FREE PLANS  
LIMBERT #238 SIDE TABLE**

**Directions:**

- Print these 4 pages in black & white/grayscale (not color). Make sure to print or photocopy scaling so that all grids are 1" x 1".
- Cut a circle with a 6.4" radius or 12.8" diameter (no diagram needed).
- Trace or glue scaled diagrams onto your template material or solid wood.
- Cut out parts as needed

NOTE: Most likely, just printing these pages won't generate the proper 1" x 1" grid. You may need to adjust the scale settings in your print software or photocopy your original printout using the + feature on the photocopier to scale it up.
